Tutorial 1:

- 1) How to Login
- 2) How to Enroll for Units

Accessing and Logging in to your ODeL account

There are two option to get to ODeL site, either through the University website (www.khu.ac.ke) or by typing in www.elearning.khu.ac.ke as the url on your browser

Logging in to your account

- Once on the login page, use your login information to login.
- Use your admission number but replace slashes "/" with dashes "-" for example instead of bbm/0123/456 you use bbm-0123-456 as the username.
- The initial password of odelkhu2020 but you must change it to something you are comfortable with as soon as you are logged in.

Enrolling for Units/Classes in ODeL

- Navigate to the Schools section at the bottom of ODeL homepage.
- Choose your School and then the level of your programme (i.e. degree or diploma).
- For Continuing students use the search box to find the unit/course on offer already posted in the ODeL System (see the units for offer under download section of the university website <u>www.khu.ac.ke</u>). First year students must choose "Year One" then "Semester One" to find the units to enroll to. (see the slide below)
- Then you can enroll for those units using a *self-enrollment key* for that class.
- Please take note of the code for the unit because you will be using that code for selfenrollment into a unit/class.

Enrolling using Self-enrollment Key

- The self-enrollment key is the code of the unit for example if the unit code "bbm 121" then the self-enrollment key is bbm121 (no spaces).
- Incase you need help with the enrollment for the units contact the University Registrar's Office.

Accessing Class/Unit Content

- Once you enroll for unit(s), you should be able to see all your units on your dashboard. You can access any of the units using their respective links to attend a class.
- The instructions and details of every unit/class should be available on the respective pages of the unit(s).
- Please feel free to seek help and support from your lecturer for the class/unit.
